JEN GROUP ANNOUNCES THE APPOINTMENT OF MR. ALEX NINSIIMA AS REPRESENTATIVE TO UGANDA FOR NIGERIA'S JEFTEX MARINE SERVICES

Kampala, Uganda – 08/May/2026– Jen Group is pleased to announce the appointment of Mr. Alex Ninsiima as the Official Representative to Uganda for Jeftex Marine Services, a leading petroleum supply and marine logistics company with a distribution license from Dangote Refinery.

This strategic appointment marks a significant milestone in strengthening petroleum supply partnerships and expanding access to high-quality petroleum products within Uganda and the wider East African region. Through this collaboration, Jeftex Marine Services will work closely with stakeholders in Uganda to facilitate reliable, efficient, and competitive supply solutions for petroleum products sourced through Dangote Refinery's authorized distribution network.

In his new role, Mr. Alex Ninsiima will oversee business development, stakeholder engagement, and market expansion initiatives on behalf of Jeftex Marine Services in Uganda. His appointment reflects confidence in his leadership, industry insight, and commitment to advancing regional energy solutions.

Speaking on the appointment, a representative of the Board of Directors of Jen Group stated:

“We are proud to announce Alex Ninsiima as the Representative to Uganda for Jeftex Marine Services. This partnership represents a major opportunity to strengthen petroleum product supply chains in the region while supporting economic growth and energy accessibility. Alex brings the professionalism, strategic vision, and local market understanding needed to drive this mission forward.”

Alex Ninsiima also expressed enthusiasm regarding the new role:

“I am honored to represent Jeftex Marine Services in Uganda. With the support of Jen Group and our strategic relationship with Dangote Refinery's distribution network, we are committed to delivering dependable petroleum supply solutions and building strong partnerships across Uganda and East Africa.”

The appointment is expected to enhance petroleum product availability for commercial, industrial, marine, and government sectors while contributing to regional trade and energy security.
